

Specialist Public Affairs (m/f/d)

Daikin Chemicals - Positively Innovative

Since 1933, Daikin Industries has been involved in the research and production of fluorochemicals, and is one of the world's foremost manufacturers of fluorochemical materials today. Daikin's unique expertise is essential to a variety of industrial fields: With world-class technology, we offer a wide range of high quality products with applications in automotive, semiconductors, health care, renewable energy, consumer cookware, wire and cable, textile and fabric treatment, paper and packaging, optics and displays, coatings and more.

Assignment

Assistance and coordination in public affairs activities at Daikin Chemical Europe (DCE).

Main responsibilities

- Assist to hold regular meetings with local business managers to exchange information on regulatory challenges
- Support commercial forces in visiting customers when regulatory issues are at stake
- Stay connected to major sources of information from regulatory bodies and from professional associations
- Monitor moves by the authorities and legislators, and exchange regularly information with Legal and Compliance Department
- Attend European meetings or calls of professional associations where Daikin is member, or any other event or gathering that is relevant to their duties
- Analyse proposition/questions made by such associations and build Daikin's reactions and argumentation
- Participate in meetings with downstream industry associations and with governmental bodies
- Organize the DCE monthly advocacy meeting and the sharing of information relevant to regulations and standards
- Stay connected with the Daikin advocacy community
- Any coordination of meetings or publication to DCE as instructed by the line manager
- Establish and keep updated an overall vision and understanding of European relevant regulation landscape and its trends with regards to Daikin existing or under-development products.
- Establish a network of contacts within European and national relevant regulatory bodies as well as within the Industrial community. Organize similar networking between Daikin experts and the scientific arms of these bodies.
- Represent Daikin to all major industry associations relevant to Europe, or organize such representation within Daikin for those where they will not attend

- Identify most important regulation/standard risk (current or future) and opportunities to report to the line manager, and inform relevant local businesses and Daikin global advocacy community as instructed by the line manager

Personal skills
