

# ADVANCED COMPOUNDS

Daikin Chemicals offers special polymers with enhanced functionalities and advanced compounds based on high-performance thermoplastics:

- PAEK, LCP, PPS, PEI, HTPA, PCT and more
- Unique PEEK/Fluoropolymer alloys

Scan for more information.

## Daikin Chemicals' specialty compounds deliver enhanced and tailored features:

- ✓ High temperature resistance
- ✓ Outstanding chemical resistance
- ✓ Improved endurance
- ✓ Enhanced thermal conductivity
- ✓ Enhanced electrical conductivity
- ✓ Ultra low dielectric loss
- ✓ Excellent tribological characteristics
- ✓ Metal replacement
- ✓ Integrated functionalities

## Application examples:

- ✓ Gaskets, valves, bearings
- ✓ Connectors
- ✓ Housings and covers
- ✓ Heat sinks
- ✓ Bipolar plates
- ✓ Components in pumps and compressors
- ✓ Radome and components requiring EMI
- ✓ Tubing - catheters
- ✓ Semi-finished products

## Market Applications

INDUSTRIAL

ENERGY

MOBILITY

HEALTHCARE
